# **LUNA PARK**

## **RIDER SAFETY & ACCESSIBILITY QUICK GUIDE**

	Height Requirement	Intensity	Wheelchair accessibility Transfer required	How many stairs to access the ride	Entry point for Guests in a wheelchair	Service animal accessible	Sit upright or stand unaided	Keep your head upright during acceleration	Hold on continuously with at least one upper extremity	Brace yourself using lower extremity	Absorb sudden and dramatic movements	Climb a ladder or stairs independently (ride evacuation)	Observe, negotiate and react to the ride course and obstacles	Have the mental and physical attributed to use the safety devices correctly and follow instructions	Pregnant riders may ride	Broken bones, plaster casts may not ride (other injuries may also prevent riding)	Loose items permitted (including cameras)	<h1>ATTRACTION DESCRIPTION</h1>
	< 85cm																	
	85-105cm	High		4+	General Entry		Stand Upright Unaided											
	106-131cm	Low		2	General Entry		Sit Upright Unaided on Horse											
132cm+	Low			Ride Exit		Sit Upright												
<b>ROTOR</b>		High		4+	General Entry		Stand Upright Unaided											Riders stand inside a rotating drum and are subjected to intense spinning and centrifugal forces causing them to stick to the drum wall while the floor drops away.
<b>CAROUSEL</b>		Low		2	General Entry		Sit Upright Unaided on Horse										This is a rotating carousel ride. Riders may be seated astride the horses which move up and down throughout the ride cycle, or within a fixed Chariot.	
<b>FERRIS WHEEL</b>		Low			Ride Exit		Sit Upright										This is a rotating Ferris Wheel ride which takes riders to a height of approximately 40 metres in the air in a seated Gondola. It will stop periodically throughout the ride cycle	
<b>VOLARE!</b>		High		4+	General Entry		Sit Upright Unaided										This is a high speed flying swing carousel with dramatic turning and spinning at height. Guests remain seated throughout the ride cycle.	
<b>TANGO TRAIN</b>		High		2	Ride Exit		Sit Upright Unaided											This is a high speed circular motion thrill ride which travels forward and reverse. It subjects riders to dramatic acceleration, dipping and spinning forces while seated.
<b>HAIR RAISER</b>		High			Ride Exit		Sit Upright Unaided										This is a high speed drop tower ride which is 35 metres tall. It drops at a speed of 80km/hour. Riders are seated and secured in a harness restraint.	
<b>BIG DIPPER</b>		High		4+	General Entry		Sit Upright Unaided										This is an inline seated launch coaster which travels up to 72km/hour and loops 360 degrees multiple times throughout its course.	
<b>WILD MOUSE</b>		High		4+	General Entry		Sit Upright Unaided											This is a high speed rollercoaster that includes sudden and dramatic acceleration, deceleration and bumping
<b>DODGEM CITY</b>		High		2	General Entry		Sit Upright Unaided											This is a dodgem car style attraction which subjects riders to sudden and dramatic acceleration, deceleration, bumping and impact with other cars.
<b>CONEY ISLAND GENERAL</b>		Low			Viewing Area												This is a traditional 1930's fun house attraction with Luna Park Sydney memorabilia, pin ball machines and general viewing area.	
<b>CONEY ISLAND SLIDES</b>		High		4+	General Entry		Sit Upright Unaided											This is a slippery slide. Riders are seated on a mat with their legs in a pouch. Riders need to keep balanced and upright as they slide down.

This table is to be used as a guideline. Guests who have undergone recent surgery, are suffering any type of illness or injury, including heart conditions, high blood pressure, epilepsy, back, neck or other physical complaint or any other medical condition should consult their medical practitioner or specialist to obtain suitable medical advice on their specific circumstances prior to riding. Guests with accessibility requirements are invited to attend Guest Relations upon arrival at the Park where our team members will assist you with planning your visit.

 <b>Sydney's LUNA PARK RIDES</b>	Height Requirement	Intensity	Wheelchair accessibility Transfer required	How many stairs to access the ride	Entry point for Guests in a wheelchair	Service animal accessible	Sit upright or stand unaided	Keep your head upright during acceleration	Hold on continuously with at least one upper extremity	Brace yourself using lower extremity	Absorb sudden and dramatic movements	Climb a ladder or stairs independently (ride evacuation)	Observe, negotiate and react to the ride course and obstacles	Have the mental and physical attributed to use the safety devices correctly and follow instructions	Pregnant riders may ride	Broken bones, plaster casts may not ride (other injuries may also prevent riding)	Loose items permitted (including cameras)	<h1>ATTRACTION DESCRIPTION</h1>
